For his 2012 Prestonian Lecture, Bro Harvey has completely rewritten his earlier work on this subject and introduced substantial new material, having undertaken extensive new research and developed further insights. His Lecture will interest all Freemasons who have been Scouts, as well as those concerned with Freemasonry's future and especially its links with local communities.

A published booklet, covering the ground in considerably more detail, complements the Lecture. The booklet will be on sale at deliveries of the Lecture and all proceeds will be divided between the Masonic Samaritan Fund and The Scout Association's Archives Development Project.
